Artistic Window Restoration

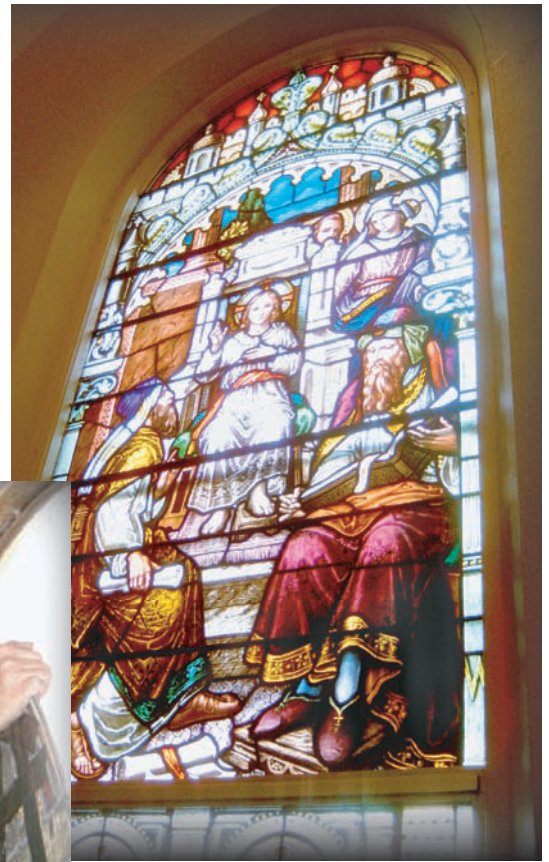

Over the years, Father Time and Mother Nature do their best to destroy your historic stained glass windows.

With more than 30 years experience and artistic expertise, the talented craftsmen at Studio Arts & Glass can bring your priceless stained glass windows back to life.

The original glass will be cleaned and reused for a historic restoration. New lead came in the same size and profile as the original will replace the deteriorated lead.

The brilliance and vibrancy of your restored stained glass windows will be a source of pride and inspiration to your congregation for generations to come.

Contact Studio Arts & Glass to find out how reasonable and manageable an artistic window restoration project can be.
